ABOUT BOSWA SURVIVAL

“When I started running survival courses in South-Africa back in 2007, I had a vision to create an elite training academy where I could train people in the ancient art of survival.

Today that dream is a reality. I am blessed in so many ways and Boswa have survived years of hardships and challenges to become the foremost and only dedicated survival training academy in South-Africa.

I have trained 3436 Students, 78 Rangers and 14 course Instructors on training courses so far. I have also trained 3 senior Instructors.

Boswa now have branches in Gauteng, Limpopo, Mpumalanga and Western Cape.

Our range of survival courses are open to anyone regardless of age or ability and we train people from all walks of life.

I hope to welcome you around the campfire on a survival course soon !”

Herman

The world is in trouble, **Are you ready?**

The world is in trouble and it is getting worse by the day. In South-Africa we have problems that is impossible to solve and we have to accept the facts that we see before us every day. It is hard and difficult for people that want to believe that things will change but the truth is that as long as the ANC is in power in South-Africa, our quality of life will only get worse. Eskom will simply continue on a downward spiral with load shedding and continue to increase the cost to the consumer without providing promised services. Our cost of living will keep going up to make up for the losses in state funds due to corruption and the incompetency of our government. Are you ready when things REALLY goes wrong! We had riots already and who knows what will happen next? You have two choices. Keep hoping for the best, or take charge and do a survival course and prepare yourself for this uncertain future. In the near future we will be challenged beyond what we ever believed possible and if you don't believe this, ask yourself... Would you have ever believed 2 years ago that we would be wearing masks and living in this restricted world?
