“Your PASSPORT to ADVENTURE”

“We are all living in a time that is extremely challenging with restrictions on our lives for the past 2 years. We all had to make necessary sacrifices and changes to be able to survive and keep going financially with daily expenses becoming a constant worry. Our country is in a mess with all too-familiar reports of corruption and violence and recent disasters are adding to our constant awareness that things DO GO WRONG ! All these stresses are having an enormous impact on our personal health, our relationships, our work situations, our financial well-being and it is inevitable to feel that things are getting out of control. The question is ... **WHAT ARE WE DOING ABOUT IT !**”

It is not easy to keep positive in these trying times and unfortunately we have to accept the fact that things are not going to change in our country and indeed in the world. With the war between Russia and Ukraine we are facing very tough times ahead and we need to face the fact that it will affect us no matter what we do.

The only way to get through these challenging times is to **PREPARE** for IT ! I am not selling you a survival course, I am giving you the opportunity to benefit from life skills that you will learn on our courses that will give you the skills and positive mind-frame to face life's challenges and to adopt a way of thinking that will help you survive life !

I hope to meet you around the campfire on a survival course soon ! “

Herman Roos
